Problem Statement:

➤ The music industry has undergone significant transformation due to digitalization, yet many artists continue to struggle with fair compensation and ownership of their work. Traditional streaming platforms often offer minimal revenue to artists, leading to financial instability and issues such as:

- **Monetization issues**
 - **Ownership and Copyright Concerns**
 - **Consumers Engagement**
- 
- 

Case Study:

“I lost my identity”: The artists who left major record deals to form their own indie labels

A major label record deal can launch an artist's career, but unfair contracts and controlling behaviour can destroy it too.

Solution

- **NFT Marketplace Integration:** - Seamlessly connect with NFT marketplaces to discover and acquire music NFTs directly within the platform.
- **Royalty Tracking:** - Utilize smart contracts to automatically track and distribute royalties to artists when NFTs are bought or sold.
- **Decentralized Ownership:** - Empower users with true ownership of their favorite music through NFTs, ensuring transparency and authenticity.
 - **Innovative Revenue Models:** - Explore new revenue models for artists beyond traditional streaming, creating sustainable income streams.

What is MNFTs Music?

- **MNFTs Music is a decentralized platform to uplift musicians by enabling them to create NFTs of their music. MNFTs Music intends to provide them with royalties and recognition that they deserve but are not able to get enough from other sources.**
- **MNFTs Music can upload their music/songs as NFTs. These NFTs can then be traded and each time an NFT gets traded, the musician will receive a certain percent of the trade as royalty!**
- **also helps fans connect on a deeper level with their music idols. MNFTs Music makes it possible to connect fans and musicians like never before.**
- **Also, it doesn't matter if you're a bathroom singer, growing YouTube/Instagram star, or a famous musician. Anyone can create NFTs of their music using MNFTs Music .**
